Silicone Carbide Brushes

Our abrasives brushes are produced with “Top Quality Filaments- TYNEX- Ensuring sharp cutting and long life (special nylon material with a high-quality and high-purity silicon carbide) and firmly fixed in the brush base.

It is as well approved by “DuPont Industry”

These are for polishing concrete tiles mixed with marble chips and granite, natural stone, ceramic stone and quartz to get satin irregular, mercerizing, honed surface, showing natural stone crystal luster and a similar stone weathered natural wave surface or crack, playing a unique decorative effect, meanwhile improving antifouling, waterproof, anti-slip properties.

	Item	Application
Frankfurt	24#,36#, 46#, 60#, 80#,120#, 180# ,240# ,320#, 400#, 500#, 800#, 1000# , 1200#, 1500# ,3000#	1.For granite, marble and artificial stone. 2.Used for rough grinding to fine polishing until to get requested effect
